

## MySQL Assignment – 3

### Reference Tables

EMPLOYEES Table (Sample Reference Data)

| EMPLOYEE_ID | FIRST_NAME | LAST_NAME | JOB_ID | SALARY   | MANAGER_ID | DEPARTMENT_ID |
|-------------|------------|-----------|--------|----------|------------|---------------|
| 100         | Steven     | King      | 1      | 24000.00 | 200        | 10            |
| 101         | Neena      | Kochhar   | 2      | 17000.00 | 200        | 10            |
| 102         | Lex        | De Haan   | 2      | 17000.00 | 200        | 10            |
| 103         | Alexander  | Hunold    | 3      | 9000.00  | 103        | 60            |
| 104         | Bruce      | Ernst     | 3      | 6000.00  | 103        | 60            |
| 105         | David      | Austin    | 3      | 4800.00  | 103        | 60            |
| 106         | Valli      | Pataballa | 3      | 4800.00  | 103        | 60            |
| 107         | Diana      | Lorentz   | 3      | 4200.00  | 114        | 30            |
| 108         | Nancy      | Greenberg | 4      | 12000.00 | 145        | 80            |
| 109         | Daniel     | Faviet    | 4      | 9000.00  | 145        | 80            |

DEPARTMENTS Table (Reference Data)

| DEPARTMENT_ID | DEPARTMENT_NAME | MANAGER_ID | LOCATION_ID |
|---------------|-----------------|------------|-------------|
| 10            | Administration  | 200        | 1700        |
| 20            | Marketing       | 201        | 1800        |
| 30            | Purchasing      | 114        | 1700        |
| 60            | IT              | 103        | 1400        |
| 80            | Sales           | 145        | 2500        |

### JOBS Table (Reference Data)

| JOB_ID | JOB_TITLE                     | MIN_SALARY | MAX_SALARY |
|--------|-------------------------------|------------|------------|
| 1      | President                     | 20000      | 40000      |
| 2      | Administration Vice President | 15000      | 30000      |
| 3      | Programmer                    | 4000       | 10000      |
| 4      | Sales Manager                 | 10000      | 20000      |

Q1) Write an SQL query to insert the above employee records into the EMPLOYEES table.

Q2) Write a single SQL INSERT statement to insert at least 3 department records into the DEPARTMENTS table.

Q3) Write an SQL query to insert one new job record into the JOBS table ensuring duplicate JOB\_ID is not allowed.

Q4) Write an SQL query to increment the salary of each employee by 10%.

Q5) Write an SQL query to set EMAIL = 'not available' for employees whose department\_id is 80 and commission\_pct is less than 0.20.

Q6) Write an SQL query to set EMAIL = 'not available' for employees who belong to the 'Purchasing' department.

Q7) Write an SQL query to update EMAIL = 'not available' and COMMISSION\_PCT = 0.10 for all employees.

Q8) Write an SQL query to increase salary by 2000 for employees working in department\_id = 60.

Q9) Write an SQL query to delete employees whose salary is less than 5000.

Q10) Write an SQL query to insert one new employee record with your own suitable details (use a new employee\_id).

Q11) Write an SQL query to change manager\_id to 300 for all employees in department\_id = 80.

Q12) Write an SQL query to delete the department record where department\_id = 20 and observe the error if employees exist in that department.
